FIRST LEGO® League

Team
Tornadoes

WANTED: Team Coaches who will help lead and inspire our students as they prepare for the Lego League Competition.

“When students are engaged in hands-on STEM experiences, they build confidence, grow their knowledge and develop habits of learning. When adults coach these students, they encourage them to try, fail, and try again, while connecting STEM concepts to real-world examples.”

(firstinspires.org/robotics/fll)

Without team coaches, we will not be able to have a Lego League team this year. If you are interested in volunteering, please contact the school office at 228-896-6631 for more information. Thank you!
